

Freedom Hill Garden Work Session

When? Saturday, May 5th

Time: 8-12 Noon

Where? Freedom Hill Garden

Dear Freedom Hill Community,

The PTA Garden Committee and the SCA Environmental Committee will be having a work session this Saturday to plant our new pollinator garden. Come at any time during the work session and we will have chores for you. We will be doing the following: 1) filling the beds with soil, 2) planting, and 3) covering the paths between the beds with wood chips. If you have extra buckets and shovels, these tools might come in handy for moving the dirt and wood chips into the garden. Remember to bring water and hats as it may be warm out and we will not have access to the building.

Sincerely yours,

Franz Misch, Faculty Sponsor (ffmisch@fcps.edu)
