One of the most transformational community programs in the region today, the Mason Game & Technology Academy (MGTA) integrates all of the STEM core competencies in a challenging, fun and engaging way. We combine both the sciences and the arts with creative & critical thinking and problem solving skills. Our unique curriculum infuses aspects of entrepreneurship, team dynamics and project based learning into every class. We offer age appropriate courses for students ages 9-18, Teacher training and Executive Education Certificates. Experience On-Site commuter

courses in the Computer Game Design Labs at Mason in Fairfax, Loudoun and Prince William or enroll in our pre-college residential program and experience tours of the nationally renowned Virginia Serious Game Institute (VSGI). We have Fall & Spring weekend classes and summer programs available. You can also take classes from anywhere at our MGTA Virtual Academy through our revolutionary cloud-based mobile education platform Scriyb. Capture the energy and magic of a live classroom by engaging in real-time learning and peer to peer interaction!
